## EXPERIENCE

### Produce Clerk at Publix

Palmetto, FL • Oct 2022 - Present

- Stocked and maintained produce displays, ensuring the highest quality of freshness.
- Conducted quality inspections to uphold Publix's standards for excellence and customer satisfaction.
- Engaged with customers to assist with their shopping needs, providing exceptional service.
- Maintained inventory management, teamwork, and an acute attention to detail.

### Owner, Web Developer at FreshKeysVIP

Bradenton, Florida • Apr 2020 - Oct 2021

- Designed and operated an online business platform for reselling software license keys.
- Collaborated with a full-stack developer for website design and functionality improvements.
- Managed automated systems, website designs, and maximized user satisfaction.
- Gained hands-on experience with React, Shopify, and Wordpress with WooCommerce.
- Oversaw brand identity and managed an online community.
- Achieved over \$500,000 in revenue.

### Pest Control Technician at Turner Pest Control

Bradenton, FL • Jul 2017 - Oct 2020

- Efficiently managed a daily route, serving 15-20 customers and consistently exceeding expectations.
- Conducted thorough inspections and tailored treatment plans for each unique situation.
- Sold services and maintained compliance with regulations for pesticide use and equipment.
- Optimized time management for maximum efficiency and productivity.

## PROJECTS

**Personal Portfolio** Developed a personal portfolio website that integrated emailJS for email connectivity, implemented email validation, utilized efficient tailwindCSS, established links between different projects, and programmed a mobile view for the website. Additionally, incorporated framer motion for a dropdown menu in the mobile view.

**Reddit Browser** Created a Reddit browser using Reddit's API to display a subreddit specified by the user. Implemented debounce functionality for search results and utilized API fetching to retrieve specific elements.

**Blackjack** Built a blackjack game from scratch using React and TailwindCSS. Customized images and ensured their proper functionality, while reinforcing proficiency in logical argumentation.

**Typeify.io** Typeify.io, built with React and TailwindCSS, is a dynamic typing website that improves user typing speed and accuracy. I am dedicated to implementing features over time.
